PARK  AVENUE

Precious Wood Floors

REAL MATERIAL
EXCELLENT CRAFT
UNIC DESIGN
PERSONALIZED

Park Avenue presents “Precious Wood Floors”, a journey that celebrates the culture of wood and the art of craftsmanship, a collection that embodies the essence of exclusivity by celebrating the beauty of Italian artistry. Excellence is not just an objective, but a commitment maintained by Park Avenue. Tapping into the profound values of traditional Tuscan craftsmanship and knowledge of antique wood flooring, each element is a tribute to craftsmanship and dedication.

Park Avenue celebrates beauty in its purest form. The rigorous choice of woods, combined with meticulous and detailed workmanship, creates settings with extraordinary balance, reflecting all the creativity of the craftsmanship.

With uncompromising aesthetic research, THE WOOD collection offers original installation styles and sophisticated textural mixes. Precious wood, stone, marble and metals are mixed to create a broad range of patterns, turning each wood floor element into a work of art.

True magic surfaces when each space has the ability to reflect the unique essence of its inhabitant. Park Avenue appreciates the importance of personal expression by offering a broad variety of wood types, finishes and shades: the key to making each room a pure reflection of the taste and character of the person that lives in it.
